
RINA&IMarEST Technical Presentation

Operation and Maintenance of the Captain Cook Graving Dock: From the Defence Contractor Elysium's Perspective. Presenter Jonathan Wall, Consultant to Defence. Wednesday 7 February 2024, 6.00pm, in person or online. The Captain Cook Graving Dock at Garden Island is essential for the delivery of ship repair services to Royal Australian Navy vessels. Elysium developed, implemented, and managed the Dock Operation and Reticulated Services Contract, a key contract for the operation and maintenance of the Captain Cook Graving Dock, a strategic national asset at the Garden Island Naval Dockyard in Sydney. This presentation will look at the operation and maintenance of the graving dock for maintenance of RAN vessels to fulfilment of the contract.

Wednesday 7 February 2024, 6.00pm, in person or online.
