

RINA/IMarEST Technical Presentation

Construction of Advanced Composite Racing Yachts

Presenters	Eric Desjardins General Manager Australia, McConaghy Boats
Date	Wednesday 3 March 2021
Time	6:30 pm AEDT
Meeting	This presentation will be held as a video-conference webinar using WebEx software hosted by Engineers Australia. Registration for the presentation is required (see below).

McConaghy Boats is an Australian company which had been in operation for over 50 years, specialising in the manufacture of carbon-fibre racing yachts, as well as projects using composite materials for a wide range of sectors such as astronomy, defence, wind energy, solar energy, transport industry, sub-sea exploration and architectural features.

This presentation will showcase the typical design and construction processes at play in manufacturing high-performance racing yachts such as Wild Oats XI. It will also shed some light on the backstage trades which ensure that the yachts get to the starting line.

Registration Registration for this presentation may be completed at

<https://cvent.me/YP1mnd>

Enter your first and last names and email address, career stage and engineering sector, agree to the terms and conditions, and click Next/Next, then enter the Discount Code RINAIMAR to reduce the payment to zero, and click Submit.

When registered, you will receive a confirmation email containing the URL and password for the webinar.
