

Presents

NAVIGATION ASSESSMENTS

With Captain Mark Bull FNI

Captain Bull has held commands at sea, worked as an ISM/ISO Auditor, a P&I Club Loss Prevention Manager, and established a German ship management company. Now a marine consultant, Mark works in Navigation Assessments and assists European pilotage authorities in remote pilotage.

Captain Bull FNI sits on several technical committees, has authored various technical publications, and developed the *Navigation Assessor* training course.

And

MARINE BIO-FOULING

With Adam Gunn MNI

Adam Gunn MNI is the GM of the Australian division of Subsea Global Solutions, a leading commercial diving company in providing emergency underwater maintenance and hull cleaning services.

With the recent high-profile cases of cruise ships being denied entry to some ecologically sensitive ports and areas due to 'bio-fouling,' Adam's expertise can prevent serious consequences to ship itineraries.

Join us for this special presentation and hear from our two esteemed experts.

17:30 Thursday, 16 March 2023

Sydney AMSA Office: 300 Elizabeth St, Sydney NSW 2000
